Information on the manufacturer

(obligatory if the manufacturer is not the applicant)

Production site 1

Company name:

Address:

Production site 2

Company name:

Address:

Turnover

State the estimated turnover within EU for the products on the application: EUR

Applicant's undertaking

APPLICANT'S UNDERTAKING As the applicant for a EU Ecolabel, we hereby declare that we have read the Regulation (EC) No 66/2010 of the European Parliament and of the Council of 29 November 2009, on EU Ecolabel, OJ L27, 30.1.2010 s.1, the Commission Decision determining the ecological criteria for the product group in question and the contract (Annex IV) to be signed between the holder of a Community Eco-Label and the Competent Body, Ecolabelling Sweden.

We hereby make an application for the use of the EU Ecolabel on the product(s) specified in this application.

If the application for a EU Ecolabel is successful, I (we) agree to abide by the product group criteria, the terms and conditions laid down in the regulation Articles 9&10 and in the contract for use of the EU Ecolabel, during the subsistence of the contract.

As the successful applicant I (we) agree to manufacture/import products which are in conformity with Community health, safety and environmental requirements in all production and handling stages.

As the successful applicant I (we) agree to pay all relevant fees determined by the fee decision of Ecolabelling Sweden.

Applicant's signature (authorized signatory)

Printed name:

NOTE

If you in ECAT have stated that your country is registered in a developing country or that you are SME, Micro company, EMAS certified or **ISO 14001** certified, remember to attach documents confirming this when you submit the application to Ecolabelling Sweden.

The reduction for EMAS and ISO 14001 is subject to the condition that the applicant explicitly commits to ensuring full compliance of its ecolabelled products with the relevant EU Ecolabel criteria throughout the period of validity of the contract and that this commitment is appropriately incorporated into its environmental policy and detailed environmental objectives.

This means that we need a copy of your environmental policy and detailed environmental objectives containing your commitment to the EU Ecolabel criteria in your company's ISO 14001 or EMAS certification.

Application fee will be invoiced by the Competent Body, Ecolabelling Sweden on the receipt of the application. The application will be processed when the fee is paid.

If the application is successful, the Competent Body will invoice the licensee for an annual fee.
