

## Appendix 9a Performance test for wash polish/wash-and-wax care products

### The following requirements apply

- The product must be used by at least 5 users for 3 months.
- The product must be used with satisfactory results on the types of substrate for which the maintenance product is intended.
- The traffic conditions under which the products are to be tested must correspond to normal traffic in corridors in large office buildings.

In the user test, the user allocates points for various properties, with 5 being the highest score and 1 the lowest score.

### The types of floors that must be tested

- The test must include all of the floor types for which the product is marketed. This means at least one user per floor type.

### Requirements applicable to the individual parameter

- A score of 1 must not be awarded by a user for any parameter.

### Overall assessment of the product

- A score of 3 must be given by at least 4 out of the 5 users (at least 80% of all users).
- A score of 1 must not be awarded by any of the users.

For each product, the individual parameters must be assessed separately (test parameters). In the case of non-standard products, Nordic Ecolabelling may permit the user's report to add a further point's assessment for other overall properties. The table below shall be used.

Product type	Floor type	Test parameter	Points (1-5p, where 5 is best)
Name of Wash polish/ wash-and-wax care product:	Types of floor for which the product is intended (to be completed by the manufacturer):	<b>Application</b> How is the product to apply/distribution capacity?	_____ P
		Foaming: Is the foam level low when applying the product? Alternatively, is the foaming satisfactory during application?	_____ P
		Odour of the product?	_____ P
		<b>Cleaning/maintenance with the product</b> Ability to avoid re-soiling of the floor?	_____ P

		Ability to maintain the gloss of the floor?	_____ P
		Slip resistance?	_____ P
		Water resistance?	_____ P
		Cleaning ability?	_____ P
Overall assessment of the product (other parameters such as removal, drying time before next coat, wear resistance etc. can also be included here):			_____ P
Test period:			
Floor type/substrate:			
Are polishing machines used?			
Comments on overall assessment:
